- Motor-Sound-Paket inkl. Tailpipes
- Colored wheelcenter cups

“Perfectly maintained”—this description fits this midnight blue Porsche 993 Carrera perfectly.

Since it was delivered from the Porsche Center in Bremen in February 1996, this convertible has had only three owners, has always remained in Germany, and impresses with a condition that leaves nothing to be desired, even upon close inspection. In 2021, we entrusted this Porsche to the care of a perfectionist collector, and we are pleased to be able to offer it again.

It is evident in many ways that the convertible has always been meticulously maintained; service visits were performed at Porsche nearly every year. Its appearance and driving dynamics are more in line with half its mileage. The 911 is accident-free; aside from the front left fender and the hood, the body still retains its original paint and features perfect gap tolerances and fit.

In addition to its timeless appearance in midnight blue metallic with a blue interior and soft top, this Carrera delights with the sought-after combination of a powerful Varioram engine and a close-ratio G50/21 manual transmission. The full leather interior elements were retrofitted; all removed original parts are present and in very good condition.

The history of this 993 is complete and fully traceable. In addition to the original vehicle registration certificate and the complete owner’s manual with service booklet and 24 documented service records, nearly all service invoices are available.

The Carrera has just undergone extensive maintenance at our partner shop, during which the car’s entire mechanical system was inspected. In addition to the work performed according to factory specifications, the shock absorbers and the clutch—including the dual-mass flywheel—were replaced (invoice totaling €8,200).

This Porsche 993 Carrera Cabrio combines the joy of its aesthetics and driving dynamics with the solidity and reliability of the final and best iteration of the air-cooled 911. A particularly desirable Porsche!

The sale is being conducted on behalf of our client. The vehicle will have a fresh general inspection upon delivery; an “H” license plate is available upon request. We offer delivery in a closed transport vehicle.
