One of likely only 60 Porsche 993 Carrera S models delivered worldwide in the captivating "Vesuvio Metallic" color. With a manual transmission and an impeccable history, it is exceptionally rare and highly sought after.

Delivered from Porsche in Stuttgart in September 1996 as a factory car; from 1997 until recently, it was owned by a single owner in Germany. The 993 has never been in an accident and has never been repainted.

Only the "Vesuvio Edition" featured exterior parts painted in the accent color steel gray: the air vents in the hood, the side mirrors, the model lettering, and the door handles. It also features wheels with a painted star and a two-tone interior.

The documentation includes the original vehicle registration certificate, the stamped original service booklet, a folder containing service invoices and vehicle inspection receipts, as well as the purchase invoice from Porsche dated 1997.

A comprehensive major service has just been performed by our partner shop (Hartmut Flimm, Hanover). In addition to the work specified by the manufacturer, the following components, among others, were replaced: timing chain cover gaskets, the clutch assembly including the dual-mass flywheel, shock absorbers, and front control arms.

This Porsche 993 Carrera S, with excellent specifications and an extremely rare color scheme, is sure to be a highlight of any collection.

The vehicle will be delivered with new tires, a fresh general inspection, and a 12-month warranty. Delivery throughout Europe via enclosed transport is available.
